

Multi-site Enterprise Edition

Packages and Pricing

Our Enterprise Edition is a white label environment that supports multiple websites, with super-administrative access to underlying Buzzr and Drupal code. It includes both a development environment and a separate live client environment, run under your URL. Custom templating available. Contact Buzzr for volume pricing beyond what is shown below.

Each level has a monthly per-site license fee and a required minimum number of monthly support hours. There is a one-time installation fee for provisioning the resources needed for a new account or for growing to a new level.

	Level 1	Level 2	Level 3	Level 4

* Additional storage: \$0.25 per GB

** Additional bandwidth: \$0.50 per GB

*** Additional basic support: \$150 per hour

Support

Buzzr Support includes updates and upgrades, performance tuning, code reviews (required for adding custom code to the platform), security reviews, back-ups, assistance with site tools, review of CSS/styles, and expedited bug fixes.

Special Trial Account Offer

A Buzzr Trial Account provides a very cost-effective way to fully test Buzzr for a period of time limited to 3 months.
